ACT457

25-pack Pear fob, empty EV2

Product overview

The overmolded pear shape keyfob in black color offers a robust solution for a secure environment where card data is protected with Mifare Desfire EV1 or EV2 encryption. The card offers a 2 kB application memory. It can be used in secure mode with ATS118x range readers and ATS1136 keypad. It can also provide for Mifare 7-byte CSN.

Secure programming

Using the secure programmer with the Advisor Management cards and keyfobs can easily be programmed for secure use.
